Message from Her Excellency Dame Pearlette Louisy the Patron of SLBWA

On September 22nd 2011, the Government of St.Lucia signed the United Nations Convention on the Rights of Persons with Disabilities. As a State Party to the Convention, St.Lucia committed itself, among other things, to:

- Promote the awareness of capabilities of persons with disabilities (Article 8)
- Ensure that persons with disabilities can access their environment, transportation, public facilities and services, and information and communication technology (Article 9)
- Guarantee persons with disabilities among us their inherent right to life on an equal basis with others (Article 10), and
- Generally, to recognize the need for them to experience social inclusion.

We need to be much more proactive in our approach to providing for our blind and visually impaired people and to their inclusion in our social programmes. The St.Lucia Blind Welfare Association which advocates for the country’s “visually challenged “population has not sat back waiting for others to initiate action on its behalf.

Over the years the Association has sustained an ambitious programme of national sensitization as well as improving the circumstances and the quality of life of the nation’s blind.

The Association was excited when St.Lucia signed the Convention and its Management and clients are looking forward with anticipation to the measures that will be put in place to promote the participation of the visually impaired and blind persons in the civil, political, economic, social and cultural spheres with equal opportunities as their sighted fellow citizens. We should not disappoint them or dampen their enthusiasm. We need to look beyond their blindness and see their capabilities and their potential. I make this plea on their behalf as Patron of the Association and encourage everybody to contribute to their awareness-raising initiatives and efforts.

Adapted from Her Excellency’s message for Blindness Awareness Month 2012
Message from the President

Like a homosapien, SLBWA is purposefully driven by two strong legs, pursuing special goals. These are enshrined in its shared mission with that of the Caribbean Council for the Blind (CCB): “preventing blindness and vision impairment, while restoring sight and creating opportunities for persons whose sight cannot be restored.”

Indeed, the Association has relentlessly pursued implementation of these goals. Consequently, SLBWA should be extremely proud of its notable successes to date. However, the current ‘global economic environment’ and necessary national adjustment measures are having deleterious impact on the well-being of the Association’s clients. There is an increasing number of parents affected by blindness and vision impairment who are unable to house, feed and clothe their children. This reality has seen the re-emergence of the historical “blind beggars” on our streets. The Association laments the fact that criminal elements within the society are using deviant measures to exploit the vulnerabilities of some clients. In that regard, we will not forget Mr. Justus Monrose, a young student with vision impairment who disappeared approximately one year ago.

We urge the relevant state authorities, to continue the search for this young boy and take the necessary actions to sensitize the population with regard to the vulnerable members of our society and ensure that perpetrators of such crimes are brought to justice. This situation cannot be allowed to prevail.

It is in the spirit of nation building and the recognition that every person has a responsibility and right to contribute to national development that we appeal to all citizens and friends with good intentions to support our inclusive education, adjustment to blindness and inclusive employment programmes. Together you will help the Association to not only design and implement appropriate interventions, but, also to empower clients with credible options for life.

Dr. Horatius Jeffers
President
Preface

The first half of 2012, was affected by the following challenges:

- National General Election which resulted in reshuffling of top Officials in SLBWA-linked Government Ministries.
- Serious health issues which impacted some members of staff.
- Untimely loss of siblings of SLBWA staff, members and associates.

In response to the challenges, the Secretariat and Board of Management [BOM] made appropriate adjustments to ensure smooth running of the Association’s Programmes.

However, during the second segment of the reviewing period, Government was forced to implement “Value Added Tax” [VAT] to mitigate St. Lucia’s tight economic problem. In that regard, VAT is compounding SLBWA’s ongoing struggle to ameliorate serious social, economic, education, training, housing, employment and other issues, affecting persons with blindness and visual impairment. Consequently, this report will address but not be limited to the following as per programme areas:

- Kids in Sight [KIS] visit 2012
- St. Lucia Glaucoma Laser Trabeculeplasty Study [SLGLTS] update
- World Glaucoma Awareness Week 2012
- World Sight and International White Cane Days 2012
- Blindness Awareness Month [BAM] 2012
- SLBWA Annual General Meeting [AGM] 2012
- National and regional training activities
- Delivering Vision 2020 Project in the Caribbean [DVPC]
- Micro Enterprise Project [MEP]
- Participation in health fairs, fundraising, community activities and other matters.

Mr. Anthony Avril
Executive Director

Eye Health

Eye Health Officer/Regional Focal Person for Low Vision: Mrs. Denise Godin

The Eye Health Programme of SLBWA addresses eye health in a holistic manner, including the full spectrum of vision from perfect eyesight to total blindness.

The Programme includes:
- eye health promotion
- in-house vision assessments
- low vision assessments
- nurses vision assessment training
- teacher eye-screening training
- sensitization and awareness
- school eye-screening

Also:
- Kids Insight Project 10th year
- St. Lucia Glaucoma Laser Study 2nd year

Vision 2020

Coordinator: Mrs. Emma Bernard-Joseph

The Coordinator spearheaded activities for the observance of World Glaucoma Day and World Sight Day. The activities included:

- Walk for Glaucoma Awareness, in the south of the island
- Walk for Sight in the north
- Participation in health fairs
- Sensitization talks, addresses and articles
- Visit to Uptown Garden Girls’ Center
Vision 2020 Annual Meeting

The 2012 Annual Vision 2020 Meeting for the Caribbean was held in Guyana. It was attended by representatives of various international (PAHO, ORBIS, IAPB, UWI Mona Campus, etc.) and regional organizations and Ministry of Health officials from other Caribbean countries such as Trinidad and Tobago, Guyana, Belize, Grenada, etc. The National Coordinator for St. Lucia attended the meeting with Mr. Anthony Avril, Executive Director of SLBWA, Mrs. Denise Godin, Eye Health Officer, and Nurse Juliette Joseph from the Ministry of Health, St. Lucia.

The St. Lucia Team presented a summary of eye health services in St. Lucia; “The right to sight - serving the people while raising revenue”

Eye Care St. Lucia (ECSL)

Manager: Mrs. Emma Bernard-Joseph

ECSL services were complemented by a team of visiting surgeons. Dr. Suresh Puthalath who performed 34 surgeries during his visit; Dr. John Nguyen, oculoplastic surgeon, and Dr. Charlie Moore, cataract surgeon who form part of the Kids Insight Team. Although the surgeons donated their time, SLBWA was responsible for all logistical costs including boarding, lodging, ground and air transportation.

2325 patients were seen and 1355 spectacles were sold.

With the implementation of Value Added Tax (VAT) there was a downturn in consultations and sale of spectacles.

SLBWA took part in many community eye screenings. 720 persons were screened, 271 were referred.

Eye Care St. Lucia continues to receive referrals for service from the Cuban Initiative and Bordelais Correctional Facility. The homes for the elderly as well as for needy children send their residents to ECSL for eye services. We are grateful for the support from the Ministry of Social Transformation that assists with payment for the costs of services to some needy persons.
Adjustment to Blindness

Technical Adjustment to Blindness Officer: Mrs. Winnie Weekes

The Unit continues to mobilize resources from public and private institutions to support various needs of blind and visually impaired clients.

The Unit provided services to 26 clients during the year in review.

Through the Barbados Association of the Blind and Deaf (BABD) and CCB, the Technical Adjustment to Blindness Officer facilitated a basic training course for Adjustment to Blindness Technicians in Barbados.

In cooperation with National Council of and for Persons with Disabilities (NCPD), SLBWA hosted a workshop on employment for Human Resource personnel spearheaded by the SLBWA Adjustment to Blindness Officer and Executive Director of NCPD.
Education

Coordinator: Mrs. Theresa Julien

The Unit oversees the education services provided to blind and visually impaired students around the island. Also, the unit is responsible for training teachers to support the education needs of students with visual impairments.

Trained teachers serve as itinerant teachers for students integrated in the mainstream schools at all levels.

Part of the services the Unit offers is early intervention and therapy for students with multiple disabilities. This service is offered at the SLBWA office, Dennery Child Development Center and in some cases, as home based intervention.

The Unit took part in a special arts and sports exhibition organized by the Special Education Unit of the Ministry of Education.

A one week Braille training workshop was organized and facilitated by the Coordinator for the Special Education Needs and Information Technology teachers at Reunion, Choiseul.

The Dennery Child Development Center held an open day attended by Hon. Shawn Edward, Minister for Youth & Sports and Member of Parliament for Dennery North, and Edmund Estaphane, Member of Parliament for Dennery South.
Blindness Awareness Month 2012 was celebrated under the theme, “Inclusion and Accessibility: seeing beyond blindness. Among the many activities held in celebration of Blindness Awareness Month 2012, which includes the annual address to the nation by Patron, Governor General, Dame Pearlette Louisy, and Walk for Sight which was attended by Gros Islet MP Emma Hippolyte and Dr. Owen Gabriel, the highlight for the SLBWA was a strategic management workshop. This workshop was appropriately called “planning the way forward and looked at the importance of planning for any organization. The workshop was facilitated by Mrs. Nahdjla C. Bailey.
Recycling Programme:

One of the most pronounced and persistent challenges faced by the SLBWA is the difficulty of its clients being part of the formal labour force. The SLBWA has recognized an opportunity to provide persons affected with blindness or vision impairments and other disabilities, with a sustainable livelihood by undertaking recycling while contributing to the maintenance of a clean and healthy environment. The recycling programme is seen as a remedial response to provide employment to those persons.

Actions to date:

- Recycling Programme Technical Committee established.
- Pre-feasibility study, conducted by Mr. Jazzy Smith (visually impaired) and Mr. Anthony Claude Avril Jr., students of Sir Arthur Lewis Community College (SALCC).
- Financial support from Global Environment Funding, Small Grants Programme (GEF SGP-UNDP) for a planning grant, which includes the carrying out of a feasibility research study and the development of a programme plan for the SLBWA.

It is envisioned that if implemented, the recycling programme will have positive long-term impact for the SLBWA and its work.
Micro-enterprise Project

The Micro-enterprise project of the SLBWA, which is a part grant, part loan scheme, continues to provide eligible clients with the opportunity to create their own employment and gain financial independence. Four clients have already benefited from the initiative with projects including ice-cream vending, snackettes and farming. Clients have understood and continue to honour their obligation of repayment of the loan portion. Many other clients are expected to make use of this opportunity. There is a need for more financial support for this project.

Annual General Meeting (AGM)

The AGM of the SLBWA was held June 16th 2012. A new Executive Council was elected.

Health Fairs

The SLBWA continues to receive several invitations for participation in community health fairs. During the year SLBWA participated in approximately 12 health fairs and community outreach programmes. 520 adults and 218 children screened.

Value Added Tax (VAT)

The SLBWA found itself upgrading its systems and processes to facilitate the implementation of Value Added Tax (VAT), in October 2012. Given the nature of its operations, SLBWA appeals to Government to be placed on a list of institutions exempted from paying VAT.

Blind Cricket

During the year, cricket activities have been slow, because of limited financial resources to allow the sport to be advanced. Despite this hurdle, Mr. Francis Lloyd continue to inspire and motivate the members to be committed to the sport and related activities. St.Lucia is expected to host the AGM of the West Indies Cricket Council for the Blind (WICCB) in July 2013.
Tree planting exercise

Staff of the SLBWA (blind and sighted) participated in a tree planting exercise organized by the St.Lucia National Trust, under the directive of H.E. Governor General, Dame Pearlette Louisy. The Trust was mandated to plant 5000 trees within the year to help in the rehabilitation process of the forest after destruction by hurricane Tomas. The exercise culminated with over 4300 trees planted within the year.

Donations

SLBWA received a donation of 4 Netbooks from the Ministry of Education. These Netbooks are being used to strengthen the Association’s service delivery to clients.

SLBWA reinstalled its donation boxes at:

- La Place Carinage
- George F L Charles Airport
- Ferry Terminal
- Hewanorra International Airport

Human Resource

Mr. Fermin Faucher joined the staff in March 2012 as a driver.

Ms. Jessica Jacobie left the Administration Department to join the Inclusive Education Unit as an Itinerant Teacher for the blind and visually impaired.

Mrs. Shermie James-Darcheville continues her studies at MICO College in Jamaica. Her practicum is being conducted in St.Lucia, supervised by Itinerant Specialist Teach, Mrs. Martha Jeffers.

Ms. Eustatia Felicien completed her studies, and now holds a Masters of Education (MEd.) from the University of Sheffield.

Mrs. Edem Jongue-Gutiérrez, resident Optometrist of ECSL, completed her post-grad studies with Universidad Complutense de Madrid, qualifying her with Expert in Ocular Pharmacology and New Formulations.
SLBWA received support for its Dennery Child Development Centre (DCDC), from Government with 2 teacher aids from the National Incentive for the Creation of Employment (NICE) Programme.

Workshops: SLBWA participated in the following:

- Decent Work for the Differently Abled, hosted by the International Labour Organization (ILO) in partnership with the Ministry of Labour.
- Workshop on Biodiversity, hosted by the St.Lucia National Trust (SLNT)
- Social Inclusion for Persons with Disabilities hosted by Japan Overseas Cooperation Volunteer (JOCV) Health & Welfare Committee in St.Lucia
- Session on adaptability of Apple products, and Application to blind and visually impaired. Zach & Ben Coakley.

Inclusion

- Nikki Edmunds (visually impaired) participated in the Finals of the National Calypso Competition
- Congratulations to Jessica Jacobie for being the first blind person to be appointed by the Teaching Service Commission.

Awards

Mrs. Denise Godin and Mr. Anthony Avril were both recipients of the Queens Diamond Jubilee Award. Congratulations!

Social Responsibility initiatives

M & C/Goddard Group pledged to assist the SLBWA with a face-lift to the premises. Members of the M & C/Goddard Group visited the SLBWA to determine their level of support (financial and human resource). This initiative will be implemented in 2013.

A group of young men from St. Lucia Mission of Seventh Day Adventist gave a day to clean and paint some washrooms and clean the outside premises of SLBWA.
Other Projects

**Kids Insight**

An Ocular plastic surgeon joined the Kids Insight team for the 2012 visit.

The team saw 150 children and 30 adults.
St. Lucia Selective Laser Trabeculoplasty (SLT) Glaucoma Study

The study is on its second phase. Data from the study was published on the Journal of the American Medical Association Ophthalmology. The study team also held a social evening with the stakeholders. The study team plans to extend the current study and looking at the possibility of replicating it in another Caribbean island.

Space Camp

The Eye Health Officer accompanied a student, Lina Theophilus, to Space Camp for Interested Visually impaired Students (SCIVIS) in Huntsville, Alabama, USA.
This project continues to be of significant support to the work of the SLBWA, with the provision of financial, technical, equipment and other resources. SLBWA trained 122 persons including health care professionals, teachers and volunteers, in Primary Eye Care within the year. Eye Health Officer & Regional Focal Person for Low Vision, Denise Godin facilitated a Low Vision Counselor Workshop for 20 persons in Haiti.

Ms. Seslyn Maylor began her course in pursuit of a degree in Optometry at the University of Guyana. Ms. Maylor joins Ms. Marlyn Lendor, who began her degree in Optometry in 2010.

Dr. Darra Burt continues into her ophthalmology fellowship in the Dominican Republic with specialization in Glaucoma

**Capacity Assessment Tool**

A Capacity Assessment was carried out on the SLBWA operation in June 2012 as part of CCB’s technical support to partners. The assessment aimed at identifying institutional strengths and weaknesses and to devise strategies to enhance the organization’s capacity for effective delivery of services to beneficiaries and stakeholders. The areas of focus for this assessment were:

Mid-Term Evaluation (MTE)

A Mid-term evaluation of the St.Lucia programme; part of the CCB/SSI EC - funded project, “Delivering Vision2020 in the Caribbean”, was carried out toward the latter part of 2012, by independent consultant Carl Brown; under sanction by the CCB/SSI. The purpose of the mid-term evaluation was three-fold:

- To help project partners identify any gaps in implementation;
- to highlight areas where quality and performance can be improved; and
- to complement the findings of two prior Results Oriented Monitoring (ROM) missions that were undertaken in 2010 and 2011 on behalf of the Delegation of the European Commission (ECD).

The specific lines of enquiry in that MTE related to relevance of design, effectiveness, efficiency, impact prospects, potential sustainability, scalability and coherence/coordination.

Meetings

Four Regional Project Committee meetings were held, one of which took place in Antigua. Mr. Anthony Avril represented St.Lucia/SLBWA. Other meetings were facilitated through electronic medium using Ventrillo.
Conclusion and Recommendations

SLBWA experienced many serious challenges in the reviewing period, compounded by the national implementation of Value Added Tax. The SLBWA continues to struggle to meet the most basic needs of its clients. Housing is one of the areas in which the SLBWA has not been able to serve its clients. The obvious rising cost of living, crime and increasing rate of unemployment, together with other social issues have severely impacted our clients.

Despite the lack of financial resources and the evident strain on its human resource, SLBWA remains unswerving to fulfilling its mandate of providing:

- Affordable, quality and up-to-date eye care services
- Integrated and inclusive education for blind and visually impaired children
- Counseling and Adjustment to blindness services
- Opportunities of employment for blind and visually impaired adults
- Access to adaptive technology

Recommendations

- Continue work on development of revised strategic plan to guide the work of the SLBWA for the next 5 years, with particular attention to recommendations in:
  - Managements’ response to MTE recommendations
  - Report on Strategic Planning Workshop “planning the way forward”
  - Report form National Assembly of blind & visually impaired persons
  - CAT Report
- Vigorously pursue the development of a Business Plan for ECSL
- Vigorously pursue the prospect of the Recycling business to generate financial resource for SLBWA and create employment our clients
- Mobilize resources to continue the Blind Cricket programme as it plays a critical role in the rehabilitative process of the clients.
